

Upgrade of Ortlinghaus Clutch & Brake

CATEGORY: Recommended

Summary: CarnaudMetalbox Engineering have introduced an anti - fretting Bush to the Hub of the Ortlinghaus Clutch & Brake.
This Bush is located in the Clutch & Brake Hub Assembly and is intended to stop fretting of the Hub bore with the Crankshaft diameter.

This modification will be incorporated on all new Ortlinghaus Clutch and Brakes. It will also be part of the refurbishment of existing Clutch & Brakes ordered through CarnaudMetalbox Engineering

For further details about this upgrade of the Ortlinghaus Clutch & Brake Unit please contact either of the contacts below quoting Technical Bulletin Number **TB5000-042**

Note: A complete Library of Technical Bulletins is accessible on the Company Web Site.
