# Technical Bulletin

**TB5000-052**

Sheet: 1 of 1

5000 Bodymaker

Issue: 06. 07. 09

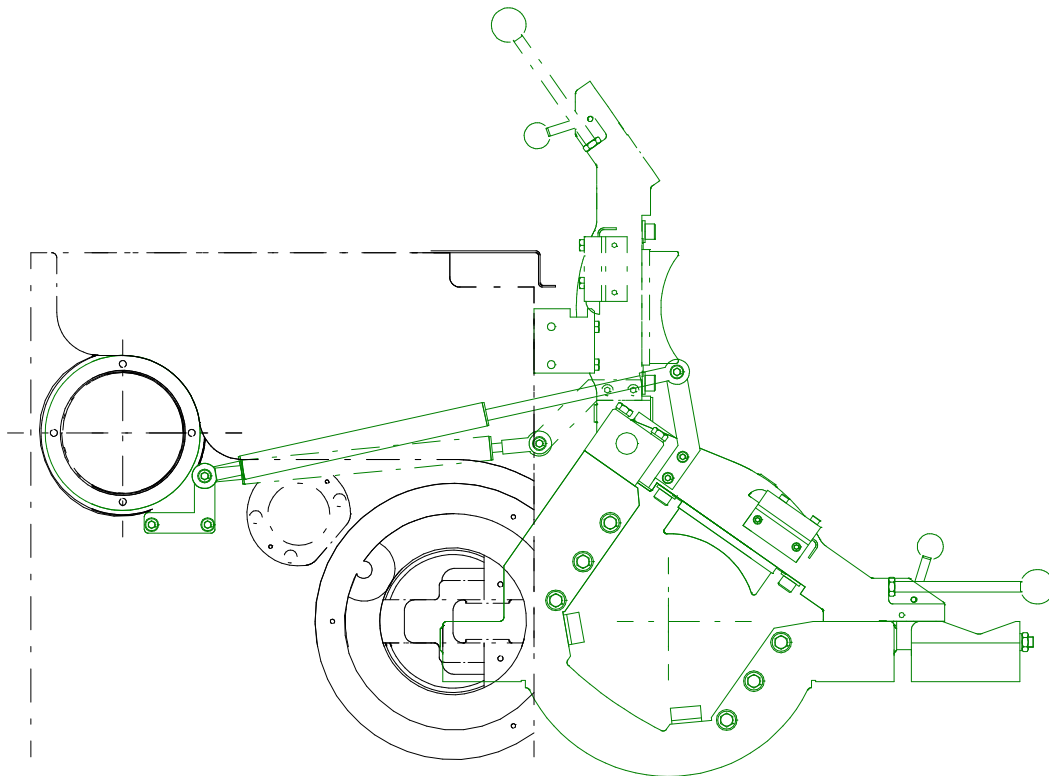

## Clamping Cover Dampening Assembly

**CATEGORY:** Recommended

Summary: In conjunction with customers operator comments regarding the weight of the Toolpack Lid on the 5000 MK2 Bodymakers, CarnaudMetalbox Engineering have introduced a new Clamp Cover Dampening Assembly.

This Assembly uses a Gas Strut to support the weight of the Toolpack Lid, giving the machine operator an easier lift.

Simple and easy installation means this improvement will be a must for all Canmakers..

For further information regarding this Technical Bulletin please contact either of the contacts below quoting Technical Bulletin Number **TB5000-052** and your machine Serial Number.
